Each activity carried out by AS INTEC S.r.l. is performed on the basis of a Quality Management System compliant with the requirements of UNI EN ISO 9001: 2015 standard and the following principles:

**Compliance with the law and Client orientation:** the proposed solutions and their maintenance are the result of the commitment and interest in complying with the legal requirements and satisfying the needs of Clients.

**Systemic approach based on processes:** managing activities and resources from a process perspective is essential for integrating efficiency and effectiveness in achieving objectives; pursuing objectives of efficiency of information flows through a progressive digitalization of the same, enhancing individual and collective know-how means having mastery of all processes from a system perspective.

**Compliance with industry standards:** managing all processes with responsibility means first of all knowing and applying the sector-specific applicable regulations.

**Leadership:** sharing objectives, involving human resources, and preserving a healthy collaboration are the principles that the Division Managers set themselves in order to achieve, with participation by all, the Company objectives.

**Efficiency and effectiveness:** all processes, with particular reference to those of design and supervision, must be kept under control and performance must be subject to continuous improvement thanks to the monitoring of objectives set by the Management.

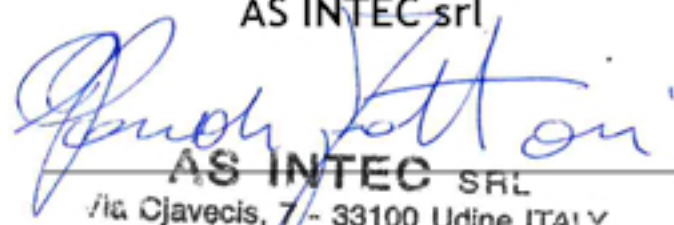

**Using resources responsibly:** the achievement of set technical and economic objectives is conducted considering the integrity and safety of all processes and infrastructures, and taking steps aimed at reducing costs and waste of resources, with constant monitoring of performance.

**Integrity and involvement of staff:** the appropriate involvement of staff at all levels allows the achievement of the quality objectives of the Company, through the enhancement of individual skills. Relations with Collaborators are based on mutual transparency, fairness, and verification that the individual work meets the criteria of integrity and honesty, which the staff must be inspired by.

**Continuous improvement:** The fundamental parameter for Company growth is to apply the system with a view to continuous improvement, believing that the verification of the effectiveness of the system is not a point of arrival but a starting point for continuous improvement.

**Client satisfaction:** the Company builds its own system and monitors all processes to pursue the goal of increasing and maintaining a consistently high level of satisfaction for its Clients and other interested parties.
